Why do we forget about people when we talk about innovation? Innovation has been a popular subject for the last years. Bruce Nussbaum, perhaps exaggerating, said "Innovation died in 2008, killed off by overuse, misuse, narrowness, incrementalism and failure to evolve. It was done by CEOs, consultants, marketeers, advertisers and business journalists who degraded and devalued the idea by conflating it with change, technology, design, globalization, trendiness, and anything new. It was done by an obsession with measurement, metrics and maths and a demand for predictability in an unpredictable

world.” If so, why another book on innovation? Because it is not one more book on the subject! It is a book that does not talk about innovation, but about people. Is there anything as important as people when innovating? This book describes how to create a true culture of innovation, a culture where innovation is not an objective, but a consequence.

In 1314, exiled poet Dante and his two sons, Pietro and his younger brother Jacopo, travel to Verona at the behest of its leader, Francesco "Cangrande" della Scalla, where Pietro becomes caught up the city's intrigues and finds himself in the middle of a growing rivalry between his best friends over a woman who is betrothed to the one and in love with the other. A first novel. Reprint. 15,000 first printing.
