You can simplify and accelerate the process of applying receipts, and have up-to-date information that improves communication among your billing and credit and collections departments.

Overview-to-Accounts-Receiveable

Choose an accounts receivable management system. You may be comfortable with an offline, manual entry system using Excel. However, if your business is growing, you may choose to automate your process with accounts receivable management software like QuickBooks. Another option is an online accounts receivable tool such as Mint or FreshBooks.

How-to-Process-Accounts-Receiveable-(with-Pictures)-wikinow

Cash application is one of the most important components of any accounts receivable process. At the highest level, there are two ways that cash application is done, manually or automated. A manual process involves a cash application specialist going through payments and associated remittance and matching the payment amounts with their associated invoices.
