Octal Steel offers a complete range of API 5CT steel casing and tubing pipe for kinds of demands in oil exploration and production. Material includes carbon steel (for most common use), alloy, Chrome, and high alloy steels. API 5CT Grades covers J55/ K55, N80 type 1 and N80Q, L80, C90, T95, P110, Q125, and with additional requirements of 13 Cr.

API 5CT Specification for Casing and Tubing

API Coupling refers to the steel couplings that used in connecting casing pipe and tubing. Also known by OCTG coupling, it is usually manufactured in seamless type, material grade same with the pipe body (API 5CT K55/J55, N80, L80, P110 etc), same PSL or providing higher grades than requested.

API Coupling and threads for Casing & Tubing (OCTG Coupling)

API publications necessarily address problems of a general nature. With respect to particular circumstances, local, state, and federal laws and regulations should be reviewed. Neither API nor any of API's employees, subcontractors, consultants, committees, or other assignees make any

Specification for Casing and Tubing - Octalsteel

API 5CT Tubing & Casing. . API 5CT Tubing & Casing. All tubing supplied under MORRIS VAVES® brand, meet or exceed the API requirements and testing procedures. (see API Spec. 5CT). For all plications and for critical wells, always delivery the MTC including the manufacturer ' s test results. For tubing used in sour wells (wells with H2S content greater than 0.05 psi partial pressure), specific sour service requirements are reviewed and applied in the manufacturing process.

API 5CT : 2012 | CASING AND TUBING | SAI Global

API 5CT OCTG Tubing supplier. API specification 5CT is a technical standard for tubes and pipes in a system intended for use in oil wells in petroleum as well as in natural gas industries. Unlike API 5L, the API 5CT Grade L80 Pipesare classified into three product specification levels, i.e. - PSL-1, PSL-2, and PSL-3.

API 5L Casing Alternatives Casing and pipe piling are products that
will be filled or encased with concrete after installation, so it is not
necessary to perform the hydrostatic leak test, and 100% NDE or
destructive testing is usually considered an unnecessary expense
considering the uses of the product in this application.

Should API 5L Pipe Be Used for Casing? How API 5L ...

The 10th edition of API 5CT "Specifications for Casing and Tubing
" and the 7th edition of API TR 5C3 "Performance Calculation of
Pipes Used as Tubing and Casing" were released on June 1, 2018.
The API official website will be launched on June 8, and will
Officially implemented on July 1, 2019.
