~~Since ACS doesn't offer a biochemistry exam, I've been looking into alternatives and this is one of the few I can find. However, their website is severely lacking, and I can't find any reviews or endorsements. They want \$79.99 for the study guide and practice exams, which seems a bit much for a gamble.~~

~~The ACS test is easier than the GRE and has a much smaller scope. In both cases, your best bet is to study your textbook, powerpoints and lecture notes (GRE study guides are awful, for future reference). My best advice: cram, cram, cram. There's no way to store that much info long-term, so just keep it in your head until the exam.~~
