Psychology Today report stresses that injecting little sexy phrases into your conversation with your other half during the day can lead to more passionate sex. And if the thought of talking dirty while in the act makes you self-conscious, don't worry, you're not alone, and you can still get aroused by it in the bedroom.

---

Dirty Talk: The Psychology and Physiology of Talking Dirty ...

Dirty talk is a liberating experience for women to break down this mindset and become comfortable in their sexuality and desires. It's where people invite their fantasies and where that straight-laced version of a person will enjoy being tied up, being called certain kinds of names, and using dirty words for genital parts when otherwise they wouldn't think of such behavior, says Walfish.

Physiology of Talking Dirty ...

Whether you have talked about them or not, the “dirty talk” that a man may exhibit during sex OR the “dirty talk” that he asks you for all plays into his fantasies, large or small. Talking dirty shows your confidence and enthusiasm. There are few qualities that are sexier than a woman with confidence.
