more lasting effect on Muslims living in the United States. Once practically invisible, they suddenly found themselves overexposed. By describing how Islam in America began as a strange cultural object and is gradually sinking into familiarity, *Finding Mecca in America* illuminates the growing relationship between Islam and

philosophies of Simmel and Heidegger, Bilici develops a novel sociological approach and offers insights into the civil rights activities of Muslim Americans, their increasing efforts at interfaith dialogue, and the recent phenomenon of Muslim ethnic comedy. Theoretically sophisticated, *Finding Mecca in America*

human--animal interactions. In *Virulent Zones*, Lyle Fearnley documents the global plans to stop the next influenza pandemic at its source, accompanying virologists and veterinarians as they track lethal viruses to China's largest freshwater lake, Poyang Lake. Revealing how scientific research and expert agency

operate outside the laboratory, he shows that the search for origins is less a linear process of discovery than a constant displacement toward new questions about cause and context. As scientists strive to understand the environments from which the influenza virus emerges, the unexpected scale of duck farming systems
