A foundation programme is a UK-inspired study course designed to fill the gap between your current level of qualification and knowledge and the level needed to be admitted to a Bachelor's or Master's degree at an international university. Foundation degrees, also known as preparation courses or pathways programmes, complement any knowledge or qualification that you might still be lacking after ...

The International Society had its origins in the First International Conference on Soil Mechanics and Foundation Engineering held in Harvard in 1936. A total of 206 delegates attended from 20 countries. In order to ensure continuation of this very successful initiative, an Executive Committee was set up with Karl Terzaghi as President and Arthur Casagrande as Secretary; but war intervened and ...

The engineering classification of intact rocks is based on strength and/or deformation properties of the rock. Table 3.5 shows the classification system of the International Society of Rock Mechanics (ISRM, 1978c). The ISRM classification is also recommended in the Canadian Foundation Engineering Manual (CGS, 1985). In this classification, the ...
