The rewards of carefully chosen alternative investments can be great. But many investors don't know enough about unfamiliar investments to make wise choices. For that reason, financial advisers Larry Swedroe and Jared Kizer designed this book to bring investors up to speed on the twenty most popular alternative investments: Real estate, Inflation-protected securities, Commodities, International equities, Fixed annuities, Stable-value funds, High-yield (junk) bonds, Private equity (venture capital), Covered calls, Socially responsible mutual funds, Precious metals equities, Preferred stocks, Convertible bonds, Emerging market bonds, Hedge funds, Leveraged buyouts, Variable annuities, Equity-indexed annuities, Structured investment products, Leveraged funds The authors describe how the investments work, the pros and cons of each, which to consider, which to avoid, and how to get started. Swedroe and Kizer evaluate each investment in terms of: Expected returns Volatility Distribution of returns Diversification potential Fees Trading and operating expenses Liquidity Tax efficiency Account location Role in an asset-allocation program Any investor who is considering or just curious about investment opportunities outside the traditional world of stocks, bonds, and bank certificates of deposit would be well-advised to read this book.

With body piercing and tattooing becoming more popular and mainstream, many teens may think about engaging in these forms of body modification. An excellent resource for young people pondering a piercing or tattoo, this title presents some of the pros and cons they should consider. In an honest and engaging manner, the author presents important information teens need to protect their health, including how to identify a reputable studio, what to expect from the procedures, and how to do proper aftercare. Legal, social, and familial issues are explored, too, including the importance of discussing the decision with their parents and choosing tattoos or piercings they can live with throughout adulthood.

The perfect way to prepare for exams, build problem-solving skills, and get the grade you want! For Chapters 1-22, this manual contains detailed solutions to approximately 20% of the problems per chapter (indicated in the textbook with boxed problem numbers). The manual also features a skills section, important notes from key sections of the text, and a list of important equations and concepts. Rehabilitation should not stop when the disabled person is discharged from hospital, and many neurological patients require ongoing rehabilitation in order to maximize their functional abilities, minimize complications and promote full participation at home and in the community. This book analyses community rehabilitation needs from many different perspectives, including the views of disabled people, rehabilitation clinicians and service providers. Many examples of community rehabilitation schemes are presented, with evidence for their effectiveness, and case studies are used to highlight the main issues. The authors take an international view, and there are chapters dealing with the disabled child in the community and with neuropsychological rehabilitation. This important book examines the growing trend towards community rehabilitation in neurology and is directed towards all clinicians involved with neurorehabilitation.

Psychosocial Rehabilitation is a comprehensive ready-reference for mental health practitioners and students, providingpractical advice on the full range of interventions forpsychosocial rehabilitation. It contextualises the interventionsdescribed and provides pointers to enable the reader to explore thetheory and research. This manual recognises the wide-ranging impact of mental illnessand its ramifications on daily life, and promotes a recovery modelof psychosocial rehabilitation and aims to empower clinicians toengage their clients in tailored rehabilitation plans. The book isdivided into five key sections. Section 1 looks at assessment covering tools available in thepublic domain, instruments, scoring systems, norms and applicationsfor diagnosis and measurement of symptoms, cognitive functioning,impairment and recovery. Section 2 covers the full range of therapeutic interventions andoffers advice on training and supervision requirements andevaluation of process, impact and outcome. Section 3 provides manuals and programs for interventionseffectively provided as group activities. Section 4 explains how to design a full programme thatintegrates therapeutic interventions with group programmes as wellas services provided by other agencies. The final section looks at peer support and self help, providingmanuals and interventions notrequiring professional or practitioner direction.

This workbook offers a variety of activities to suit different learning styles. Activities such as modeling and mapping allow students to visualize and understand biological processes. New activities focus on reading and developing graphs and basic skills.

This pocket-sized guide can be taken conveniently to meetings, interviews and visits, to be used as a quick reference point for information about the practical application of restorative justice. The book covers every stage of the process, from how a facilitator should prepare for taking on a new case, through initial contacts with victim and offender and facilitating meetings, to recording and evaluating a case. While acknowledging throughout the different possible ways of proceeding, the authors provide example prompts for steps such as writing to a victim for the first time, talking to the victim and offender ahead of their meeting, and initiating meetings. They use jargon-free language and provide helpful task checklists for speed and ease of reference. This is an invaluable companion for youth offending team workers, probation officers, prison staff, police, referral order volunteers, mediators and any professional needing to know about restorative justice.
