With $N_1 = \alpha N$ and $N_2 = (1 - \alpha)N$, where $N = N_1 + N_2$ (which is fixed), the expression for $(\Delta S)^*/k$ takes the form $-\alpha N \ln \alpha - (1 - \alpha)N \ln (1 - \alpha)$. The first and second derivatives of this expression with respect to α are $N \ln \alpha + N \ln (1 - \alpha)$ and $-\frac{N}{\alpha(1-\alpha)}$ respectively.

From his classic text on Statistical Mechanics to his recent quantum-first tour de force on Physical Chemistry, McQuarrie's best selling textbooks are highly acclaimed by the chemistry community. McQuarrie received his PhD from the University of Oregon, and is Professor Emeritus from the Department of Chemistry at the University of California, Davis.

Statistical mechanics in itself can be a bit difficult to understand, but McQuarrie is one of the best authors I have come across. I'd definitely recommend this book because it really goes in depth with explaining stat mech but in such a way that you'll be able to follow!

Using the methods developed in class: Step 1: Multiply both sides by the partition function $H = (E + pV) e^{E_j p V_j}$. Step 2: Get the temperature derivative at constant (N, P) (The conjugate variable to H in this case) $\left[\frac{\partial}{\partial T} \ln H \right]_{N,P} = \frac{1}{kT^2} \left[\frac{\partial}{\partial T} \ln H \right]_{N,P} = \frac{1}{kT^2} \left[\frac{\partial}{\partial T} \ln H \right]_{N,P}$.

This instructor's manual for the third edition of Statistical Mechanics is based on RKP's instructor's manual for the second edition. Most of the solutions here were retypeset into TeX from that manual. PDB is responsible for the solutions of the new problems added in the third edition. The result is a manual

We give some schematic solutions of exercises from chapters 1 to 10 of "Introduction to Statistical Physics", by Silvio R. A. Salinas, first published by Springer, New York, in 2001. We also add a number of corrections and some new exercises. Additional corrections and suggestions are warmly welcomed. Silvio Salinas

[PDF] Statistical Mechanics Mcquarrie Solutions Solutions to Statistical Mechanics. A forum to develop solutions to problems in Statistical Mechanics by D. A. McQuarrie. McQuarrie's Statistical Mechanics is a classic textbook in the field and, although it was first published in 1976, is still widely used in courses and consulted by researchers.
