alloy steels, stainless steels, nickel  
alloys and other metallic materials.

What is the difference between NACE  
MR0175 and NACE MR0103 ...

A: NACE MR0103 is a new standard  
entitled "Materials Resistant to Sulfide  
Stress Cracking in Corrosive

# Online Library Nace Mr0103 Mr0175 A Brief History And Petroleum Refining Environments."

Think of it as "NACE MR0175 for petroleum refineries." NACE MR0175 was originally created to cover sulfide stress cracking in the oil and gas production industry.
