The coining of novel lexical items and the creative manipulation of existing words and expressions is heavily dependent on contextual factors, including the semantic, stylistic, textual and social environments in which they occur. The twelve specialists contributing to this collection aim to illuminate creativity in word formation with respect to functional discourse roles, but also examine 'critical creativity' determined by language policy, as well as diachronic phonetic variation in creatively-coined words. The data, based either on large corpora or smaller hand-collected samples, is drawn from advertising, the daily press, electronic communication, literature, spoken interaction, cartoons, lexical ontologies and style guides. The coining of novel lexical items and the creative manipulation of existing words and expressions is heavily dependent on contextual factors, including the semantic, stylistic, textual and social environments in which they occur. The twelve specialists contributing to this collection aim to illuminate creativity in word formation with respect to functional discourse roles, but also examine 'critical creativity' determined by language policy, as well as diachronic phonetic variation in creatively-coined words. The data, based either on large corpora or smaller hand-collected samples, is drawn from advertising, the daily press, electronic communication, literature, spoken interaction, cartoons, lexical ontologies and style guides. Each study analyses novel formations in relation to their contexts of use and inevitably leads to the crucial question of creativity vs. productivity. By focussing on creative lexical formations at the level of parole, these studies provide insights into morphological theory at the level of langue, and ultimately seek to explain lexical creativity as a function of language use.

Long notorious as one of the most turbulent areas of the world, Lebanon nevertheless experienced an interlude of peace between its civil war of 1860 and the beginning of the French Mandate in 1920. Engin Akarli examines the sociopolitical changes resulting from the negotiations and shifting alliances characteristic of these crucial years. Using previously unexamined documents in Ottoman archives, Akarli challenges the prevailing view that attributes modernization in government to Western initiative while blaming stagnation on reactionary local forces. Instead, he argues, indigenous Lebanese experience in self-rule as well as reconciliation among different religious groups after 1860 laid the foundation for secular democracy. European intervention in Lebanese politics, however, hampered efforts to develop a correspondingly secular notion of Lebanese nationality. As ethnic and religious strife increases throughout much of eastern Europe and the Middle East, the Lebanese example has obvious relevance for our own time.

An investigation of the syndrome of computer addiction which attempts to discover if obsessive dependency is harmful to the psychological and social development. It is based on case studies made of volunteers, and other extensive research.

Put an end to knee pain! An esteemed surgeon and a water therapy expert team up to tell you the essentials about your knees, how to get them back into shape, and how to prevent further pain and injury. Through careful explanation, they examine each part of the healing process—from basic function to long-term exercises—guiding you to a pain-free life. With detailed information on a variety of healing options, you will learn how to make the right decisions for your knees, understand when and why surgery is appropriate, and how simple exercise in your living room and in the pool can speed the post-surgical healing process.

The essays in this 1980 volume deal largely with medieval German heroic and epic poetry.
